

Camp Invention® is returning to St. Amelia School!

Imaginations get their rocket fuel at Camp Invention!

An exciting, weeklong summer adventure awaits children entering grades **K-6th** with activities that explore connections between science, technology, engineering, and innovation while sharpening their 21st century learning skills. Camp Invention allows children to experience real-world problem solving, creative thinking, invention, and teamwork while rotating through several fascinating modules inspired by the Inductees of the National Inventors Hall of Fame. **St. Amelia School** is pleased to offer the nationally acclaimed program beginning on **June 26, 2017** with **Kathy Adymy** serving as Director of the **Launch** program!

Young innovators will:

- Invent their own duct tape creations and pitch them to mock investors
- Explore a distant new exoplanet and design inventions to create the next Earth
- Launch water rockets, build Bubble Blasters, and engineer giant castles
- Create their own personal, ultimate Spy Gadget Alarm Box by taking apart and upcycling everyday machines

All activities give participants the opportunity to explore, discover, and achieve while having fun!

Local educators will facilitate program modules and enthusiastic high school students will serve as Leadership Interns ensuring that one program team member is in place for every eight children.

Receive \$15 OFF the base price of \$225 by registering on or before May 1, 2017 using promo code Discover15. Registration, without a discount, is still available after May 1 until the first day of camp. Every registration includes a complimentary Camp Invention t-shirt. Availability is limited, so visit www.campinvention.org or call 800.968.4332 to secure your child's spot today!

Inspiring future innovators
